Aspiring Full Stack Web Developer with a strong foundation in HTML, CSS, JavaScript and modern frameworks like React and Node.js. I am eager to apply my skills in front-end and back-end development to create efficient and scalable web applications. Looking for an entry-level position where I can contribute with my skills, learn from experienced professionals, and grow as a developer.

PROJECTS

CHATAPP

Description: Developed a real-time chat application enabling instant messaging and dynamic chat rooms using the MERN stack and Socket.IO

Technology Used: MongoDB, Express.js, React, Node.js, Socket.IO.
