GitHub   LinkedIn

Aspiring Full Stack Web Developer with a strong foundation in HTML, CSS, JavaScript and modern frameworks like React and Node.js. I am eager to apply my skills in front-end and back-end development to create efficient and scalable web applications. Looking for an entry-level position where I can contribute with my skills, learn from experienced professionals, and grow as a developer.

EXPERIENCE (PERSONAL PROJECTS)

CHATAPP

A chat website build using the MERN stack (MongoDB, Express, React, Node.js) and Socket.IO supports real-time messaging with live updates. MongoDB manages data, Express and Node.js handle the backend, React powers the frontend, and Socket.IO enables instant communication.

QUIZZER

Quizzer is a quiz website built with React.js and powered by the Trivia API. It provides users with a fun and interactive experience by dynamically fetching and displaying quiz questions on various topics.

MOVIE WATCHLIST

A movie website built with HTML, CSS, and JavaScript that allows users to search for movies using the OMDB API. The site displays movie details and allows users to save their favorite movies to local storage for easy access.

SKILL

- HTML
- CSS
- JavaScript
- React.js

- Node.js
- Express.js
- MongoDB
- JWT

EDUCATION

PURSUING BACHOLER'S OF TECHNOLOGY
